

Student ID : TESTSTUDENT001

Name : TESTSTU 001

Course Code : TESTCOURSE001

Course : 27

Instructor : Nobis Martin

Lesson Period : Test Assignment 1

## Course Criteria

## Short Course Content

Static content is any content that can be delivered to an end user without having to be generated, modified, or processed. The server delivers the same file to each user, making static content one of the simplest and most efficient content types to transmit over the Internet.
